Experimental Results For each period of play, our data include the institution used, the transaction price, each sellers cost, the buyers value, as well as each sellers initial and subsequent offers in the multilateral negotiations. We also have a verbatim record of the communications between buyers and sellers. While not used in the statistical analysis, the transcripts provide qualitative insights about the players strategies and their beliefs about their rivals strategies. The data permit us to compare the transaction prices and efficiency across institutions, and to examine whether there exist experience and numbers effects. For claritys sake, in what follows we summarize our results in a series of five findings. In addition to the qualitative results displayed in tables and figures, we analyze the data using a 22 linear mixed-effects model for repeated measures. The results from estimating this model by the four regimes of 46 periods are given in Table 3 below. The results from nonparametric tests, which are reported in Appendix A,...
