## **GENERATIVE PROGRAMMING AND COMPONENT ENGINEERING: 4TH INTERNATIONAL CONFERENCE, GPCE 2005, TALLINN, ESTONIA, SEPTEMBER 29 - OCTOBER 1, 2005, PROCEEDINGS**

Springer. Paperback. Book Condition: New. Paperback. 452 pages. Dimensions: 9.2in. x 6.0in. x 1.0in. Generative Programming and Component Engineering (GPCE) is a leading international conference on automatic programming and component engineering. These approaches to software engineering have the potential to revolutionize software development as automation and components revolutionized manufacturing. The conference brings together researchers and practitioners interested in advancing automation for software development. It is also a premier forum for cross-fertilization between the programming language and software engineering research communities. GPCE arose as a joint conference, merging the prior conference on Generative and Component-Based Software Engineering (GCSE) and the Workshop on Semantics, Applications, and Implementation of Program Generation (SAIG). The proceedings of the previous GPCE conferences were published in the LNCS series of Springer as volumes 2487, 2830, and 3286. In 2005 GPCE was co-located with the International Conference on Functional Programming (ICFP) and the Symposium on Trends in Functional Programming (TFP), reflecting the vigorous interaction between the functional programming and generative programming research communities. GPCE and ICFP are both sponsored by the Association for Computing Machinery. The quality and breadth of the papers submitted to GPCE 2005 was impressive. All 86 papers, including 5 papers for tool demonstrations, were rigorously reviewed by 17 highly qualified Program Committee members. The members of the Program Committee first provided in-depth individual reviews of the submitted papers, and then debated the merits of the papers through an extended electronic Program Committee meeting. After much (friendly) argument, 25 regular papers and 2 tool demonstration papers were selected for publication. The Program Committee provided extensive technical feedback to the authors of the submitted papers. The conference program was complemented with three invited talks, three extended tutorials, and three all-day workshops. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
